Standing Orders for Naloxone Administration

**DISCUSSION:**

L. Talarico presented her previously distributed memo indicating a correction on page three (3), eliminating the paragraph pertaining to 244 CMR 9.03: *Responsibilities of Nurse in Management Role*, as it was not germane to this topic. A corrected copy will be placed in the Board packet. The memo identifies an inquiry received by the Board asking if it was within the scope of practice for a licensed nurse to administer intranasal Naloxone to an unspecified recipient who presents with specific symptoms of an opiate overdose using standing orders from a duly authorized prescriber. The memo outlined relevant statutes and regulations, professional association opinion and information pertaining to Naloxone. The memo included recommendations to Board members.

**ACTION:**

Motion by K. Gehly, seconded by C. Weekes-Cabey and voted unanimously to:

- A. Determine that administration of Naloxone by licensed nurses pursuant to the standing order of a duly authorized prescriber to an unspecified recipient who presents with specific symptoms of an opiate overdose is within the scope of nursing practice.
- B. Determine that the following components must be included in all standing orders:
  - The name(s) of the substance or activity to be administered;
  - If the order includes substance administration, the route or method and dose to be administered;

- Inclusion/exclusion criteria that the nurse will assess for before administering the substance or activity;
- The signature or approval by a duly authorized prescriber either directly on the standing order or on file with the facility/agency/program employing the nurse;
- Specify the specifics of patient presentation (subjective signs and symptoms);
- Delineate under what circumstances the activity is to be administered;
- Specify circumstances under which the licensed nurse must seek emergent assistance for continued care (i.e., contact 911);
- Provide for a manner of record keeping of accurate and detailed information regarding the encounter; and
- Provide a mechanism for regular review of the standing order to maintain currency.

Use of Social and Electronic Media by Nurses

**DISCUSSION:**

Presentation prepared by C. Silveira and A. Fein to assist the BRN in identifying the regulatory implications to consider when evaluating complaints involving alleged misuse of social and electronic media by nurses. Presentation included a Facebook® demonstration by Jana Frenier, Data Collection Consultant, Division of Health Professions Licensure. A cover memo prepared by Ms. Silveira and Ms. Fein with authoritative references and including a proposed Standards of Practice Checklist incorporating specific regulations at 244 CMR 9.00, and federal and state privacy statutes was distributed prior to the meeting.

With staff guidance, Board members will use the Standards of Practice Checklist as a tool in evaluating a case involving alleged misuse of social or electronic media at their February 2012 meeting. Based on Board member feedback at that time, Ms. Silveira and Ms. Fein will modify the checklist as needed; and distribute to Board members for their use in evaluating future complaints that involve a licensed nurse's use of social or electronic media.
